GOVERNOR-ELECT BRADLEY OUTLINES HIS POLICY.

Louisville, November 26.—Governor-elect Bradley paid a visit of courtesy to the Anzeiger a few days ago, to thank it for the good work it had done for sound money. The Anzeiger is as much a Democratic paper as ever, but to assure its readers who voted for Gov. Bradley that they need not have no panacea of convenience there, he interviewed him, and we lay its report of the interview before our English-speaking readers, confident that they will find it interesting.

"I am," began the Governor-elect, "fully aware of the heavy responsibility which rests not only on myself, but on the entire administration. I do not intend for a moment that I am better or more zealous than my predecessors in the office of Governor. I am assured you, however, that I am inclined by a steadfast and upright inclination to give the State a good administration, and to that end I require the co-operation not alone of my associates, but also of the political opponents, for whom I have the greatest respect, even if they differ with me on most public questions. The campaign is now ended, and allow me to express the hope that none of the bitterness has survived, and instead that the Republicans and Democrats will consider themselves as united in the patriotic effort to foster the highest interests of the State and its people.

"I do not deny, by any means, that I owe my victory in large part to the support of Democrats who stood with me for the national credit and honor. I do not think I can say only that I will be a Republican in name, but I will be an enemy for all Kentucky. Not by my party fellows, but by the whole people have I been summoned to this exalted position.

"I will never forget this, if the Republicans had been in power for thirty years they would probably to-day find themselves in the same position as the Democrats find themselves. Excess of power carries with it always danger of abuse, on one side as on the other. I will always bear in mind that I am not the lord, but the servant of the people, and that I can remove me as soon as I prove unworthy of the confidence placed in me.

"As for the past, I believe that the Grand Army of Kentucky, and the influence toward obliterating the Mason and Dixon line, and producing not only in Kentucky, but in the whole South, an era of good feeling, November 5th put an end to the solid South. A solid North existed to exist long ago. There is no more South and no more North, but, instead, a great, common fatherland. This knowledge constitutes the handsomest result of the Louisville encampment, and I am assured you that I thought I breathed a quite different atmosphere after it, so friendly and respectful was the attitude of my political opponents. I know the gratitude I owe the Anzeiger and its readers. He assured that I would not forget this debt. And once more be assured of my readiness and gratitude if you ever have any suggestions to make which can be turned to account to the benefit of the State of Kentucky."

PENSIONS FOR CONFEDERATE SOLDIERS.

On the 20th of last month a number of Confederate soldiers met at the Y. M. C. A. rooms in this city and discussed the question of asking the next legislature to pension all totally disabled ex-Confederates. As was stated at the time, they adjourned to meet again on the first Monday in December, at which meeting all counties will be asked to have a representative. It seems from a talk with one or two of the prime movers of the matter, that the result of the election has not in the least dampened their ardor or caused them to relinquish hopes of ultimately succeeding in the movement, and instead of abandoning it, it will be pushed forward with more vigor than if the legislature had the unwelcome Democratic majority as heretofore. They seem to think that the Republicans will be on their good behavior and will strive to manage affairs so that they will be able to retain the good things to which they will soon fall heir. Another said, "I do not know a better way for them to in-trench themselves in the esteem of the masses than by extending aid to the crippled soldiers, for it would make them thousands of votes—and that is what they want—and nothing they could do would, as has been demonstrated, drive a Republican out of the party—especially so just when the promised land is in sight."—Harrodsburg Democrat.

DECLARATION OF THE CHURCH

OF CHRIST AT BEREK, KY., LOCALLY KNOWN AS THE SECOND CHURCH.

In harmony with the great commission of our Lord, we will labor to convert men to Christ, the son of God, the Savior of sinners.

2. We will teach, penitent believers to observe the ordinance of the Gospel—Baptism and the Lord's Supper, that Baptism, as a profession of faith in, and discipleship to Christ, is the immersion of a believer in the name of the Father, and of the Son, and of the Holy Spirit; that baptism is an impressive symbol of death to sin, and resurrection to newness of life—an emblem of the burial and resurrection of our Lord—Rom. 6:3-4; Col. 2:12.

3. We will teach men that in all matters pertaining to truth and righteousness, doctrine and discipline, they take as their guide, the word of the Lord as revealed in the Old and New Testament.

SPECIFICATIONS.

1. In the light of this word we regard the spirit and practice of Caste as wrong.

2. Also, connection with secret, Catholic societies; especially such as expurgate the name of Christ from scriptures quoted.

3. We regard as wrong the use and sale of intoxicating liquors as a beverage; also the license of such use as a social privilege by municipal, State or national law.

In the light of this word all customs or practices shall be adjudged as they shall come before the church.

AN ENJOYABLE EVENING.

The recital at West Ky. College last Monday evening was thoroughly enjoyed by the very large audience that attended. It was the first of a series of entertainments to be given by the college from time to time.

The program consisted of vocal and instrumental music and reading.

The overture, "William Tell," was splendidly rendered by Miss Minnie Elliott and Mrs. Bryant Cox, while the solo singing by the latter was one of the distinctive features of the entertainment.

Mr. Robt. H. Wilson contributed two characteristic solos in his usual elegant manner.

The reading by Miss Earl Graves easily showed the great skill acquired by her in this art, and her efforts were warmly received by the people present.

The piano solo, by Miss Elliott, was a charm.

The recited ending with a vocal quartet rendered by Mrs. Cox, Miss Elliott, Messrs. Albert Anderson and John Landrum, accompanied by Miss Florence Elliott; after which the audience departed, feeling thankful to the management of the West Ky. college for so pleasant an evening.—Mayfield Mirror

A BAD NEGRO CAUGHT.

Whenever Clark county officials get after a law breaker one of two things he must do. He must get away and that quickly and stay away after he is gone, or he must make up his mind to go to jail. A case in point was that of Milton Hooton, a negro, who is wanted in two counties for a crime committed two months ago. He was caught near his home in Hayden's Corner precinct. The officers went to arrest him but he was gone. Circuit Court was in session and an indictment for rape was promptly found and a bench warrant for his arrest issued. He has since been learned that he went to Madison county and worked on the railroad near Berea. While there about ten days he assaulted a white woman, Mrs. Druggars, and after choking her into insensibility, accomplished his purpose. Sam Edmes, a neighbor, saw Hooton loitering in the neighborhood and arrested him on suspicion. He was identified by the woman, and being conducted to the jail he got loose from the Constable and escaped. Sheriff Simmons, of that county, has been looking for him since Tuesday the officers here received word that he had been seen about his old home, and that night officers James Stokely and Mitchell Calmes went there. They went to his home about daybreak and before any of the family had arisen. He was found in bed, brought here and lodged in jail. It is not known yet whether he will be taken to Madison to answer for his assault on Mrs. Druggars, or stay in jail and be tried here for his assault on the colored girl.—Winchester Democrat.

THE BIGGEST EVER CAST.

Some stupid people and some slow and prejudiced country newspapers, misled by the fragmentary table published by the Courier Journal last week, still have the idea that the Republican ticket in Kentucky was due to the fact that Democrats did not vote, and that the vote of the State was a small one. The fact is that the vote at the late election was larger than ever polled in the State before at any election; that Bradley got a much larger vote than was ever polled in the State before for a Republican candidate for any office, and that Mr. Harrison got a larger vote than was ever polled for any Democratic candidate for Governor. Bradley's vote was 172,323, which is about 17,000 more than Harrison's vote in 1884, which was the largest Republican vote previously polled in Kentucky, and larger than anybody ever received in Kentucky except Cleveland, whose vote was 169,324, which is larger than any Democratic candidate for Governor ever got before. The people were interested this time and came out and voted. The Republican organization worked for the stay at home vote and got it. Bradley got about 11,000 less than Cleveland got in 1884, which was the high-water mark Democratic vote, and Harrison got about 8,000 more than Harrison in the same year, which has been the high-water Republican vote, and with Pettit and Denmore's vote, the vote this year is the biggest ever cast in the State.—Louisville Post

BIG BRIDGE ACROSS THE OHIO AT ASHLAND.

Samuel Bigstaff, originator of the river bridge movement at Ashland, Ky., and Ironton, O., announced that the bridge would be built beyond doubt. Robert A. Orr, of Pittsburgh, a street railway capitalist, is at Ashland with Mr. Bigstaff looking over the situation, and will be one of the interested parties. Options were obtained on the street railways of both that city and Ironton, where another negotiation are on with the owners of the Hamilton, W. Va., line. The result of this will be a twenty-five mile electric road from Guyandotte, W. Va., to Hanging Rock, O. Six separate railway systems are ready to make use of the bridge, and there seems no obstacle to its early erection.

DROWNING OF ELDER ARNOLD'S TWO SONS.

Frankfort, Ky., Oct. 26.

The news of the drowning of the Arnold brothers, contained in a brief dispatch to yesterday's Capital proved all too true. While details of the harrowing accident are still meager, enough is known to identify the lost as Dalton P. and Henry, who, as a boy, was familiarly and affectionately known to his intimates as "Toots." "Dalt" was the eldest living of the seven brothers. Next to him in age is Tom, who is in Cincinnati, and Henry, the other lost brother, was next to Tom, Jim, whose trade death occurred in the Texas sixteen years ago, and Ripley the New York lawyer, who died some time ago, was the eldest of two and just older than Dalt. Only three of these seven stalwart brothers remain. They are Tom, of Cincinnati, Glen, who is with his brother-in-law at Lexington, and Gus, the youngest, who lives with his parents near town.

When the accident occurred Mrs. Arnold was at the home of her daughter, Mrs. H. T. Groen, in Lexington. Mr. Arnold and his youngest son were at the home near this city. Mr. and Mrs. Groen had just left Lexington and were on route to their little winter home, Palm Beach, at which point they are vainly expecting to join "Dalt" and Henry. The Capital contained the first news that any of them had of the disaster. A copy of it was carried by Mr. W. B. Jenkins up to the Arnold home near town yesterday morning. It was evident when Mr. Jenkins arrived that Mr. Arnold was still uninformed of the fate of his sons, and the task of breaking the news to the aged and already bereaved man, was a hard one. So terrible was his grief that it was some time before Mr. Arnold recovered himself sufficiently to send the dreaded news to the mother at Lexington and to the sister and brother-in-law, hurrying on to the scene of the accident.

SHOT BY OFFICER ALLISON.

Great excitement was caused on Main street Monday afternoon about 4 o'clock when two shots fired in rapid succession rang out in the ears of a court crowd, people scattering in all directions. Policeman Allison had shot Taylor Adams, the bullet taking effect in both arms. Adams, who was drunk, mounted his horse and became very boisterous, using offensive language in the presence of both ladies and gentlemen. Allison asked Adams to please not indulge in such talk, or he would have to enforce the law, whereupon Adams, with an oath, attempted to ride his horse over Allison, the animal rearing up, striking Allison with its fore feet, knocked him to the ground. As the officer arose he fired two shots, as above stated. Adams was taken to the office of Dr. T. R. Welch, where his wounds were dressed, the bones of the arm being found badly shattered, while the wound in the right arm was not so serious at all.—Nicholasville Journal.

ANALYSIS OF THE VOTE.

Col. Bradley received 40,000 more votes than any Republican candidate for Governor ever received before. General Hardin received 19,000 votes more than any other Democratic candidate for Governor ever received. Col. Bradley received 17,000 more votes than the Harrison vote in 1884, which has until now been the Republican high water mark. Genl. Hardin falls 20,000 votes short of the Cleveland vote of 1888, the Democratic high water mark.

EX-COMMONWEALTH'S ATTORNEY HERNDON'S LUCK.

Capt. William Herndon, of Lancaster, returned from Texas Sunday whether he had been to look after property left by his uncle Patrick, who went from Kentucky in 1831 to Missouri and from there to New Orleans with a lot of mules in 1834. He was never heard of by the family after that till recently a Texas lawyer discovered that he left some 4,000 acres of land on the Rio Grande. The captain was notified and he went to investigate. He found that the land is rich in gold and otherwise valuable, with a railroad building towards it and will be able to clearly establish his rights as heir. After leaving New Orleans, his uncle went to what was then the Republic of Texas and joined the army to fight the Mexicans. He with many others was captured shortly afterwards and the whole lot shot. There are four sets of heirs to the estate and the captain will come in for a share, and here's hoping he'll get millions out of it.—Stanford Journal.

Republicans have filed two notices of contest—Dunlap, of Lexington, vs. Kaufman, and Werner, of Davis county, vs. Thompsons, but this will be all, as the time has expired.

LEXINGTON is happy again—the Mayor has been arrested on a charge of allowing saloons to be open on Sunday, the County Judge has been enjoined from issuing \$200,000 in bonds to pay for free pikes, and the Grand Jury has roasted the Fiscal Court for extravagance.

BEWARE OF TURKEY.

Dispatches announce a frightful explosion at Yazidjion, in Turkey. Now, if we were sure that a turkey had caused an infernal machine inside of it as a Yazidjion, we would not undertake to eat even half a one to morrow, national turkey day, though it be.

GO THERE YOURSELF.

Last week the CLIMAX received a communication signed "Justice." It bore no signature, and we know not who wrote it. It was a complaint that "from common report" a certain office, at a certain time and place, had grossly failed to do its duty. His excuse for attempting to call attention to the alleged dereliction was that he is a "law-abiding and justice-loving citizen," &c.

If "Justice" wants the conduct of the office in question investigated, let him repair to the City Hall at the next meeting of the Council and to that body present the complaint, have his witness there and sit the question to the bottom.

"Justice" ought to remember that the universal rule of long standing among newspapers is not to publish any communication without knowing the source. To publish anonymous productions would work the rank injustice to the public. Every coward and scoundrel in the land would be at liberty to write and libel any and every good citizen to endless extent.

But an editor is not compelled to publish every communication sent him, even when accompanied by the real name of the writer, or by the writer himself or herself. Moreover, when an advertising commission is accepted, the responsibility, the editor is not by custom or in honor or otherwise compelled to publish. Discretion must govern such matters.

Now let us suppose a case: Suppose there should appear in the CLIMAX a communication, signed with some fictitious name or non de plume, charging the person who signed himself "Justice" with some offense, calling his real name "The accused would naturally come to us and ask, "Who is your author?" Then suppose we should answer, "Well, really I can't say, the letter came through the postoffice and there was no real name to it." Would "Justice" feel that he had been fairly treated?

Suffice it to say that if "Justice" or any other fellow or fellows wants anything published in the CLIMAX let the real name of the writer accompany the writing, and then if judgment grown from long experience and observation in such matters endorses it, it will be published.

SHOULD REVISE ITS POLITICAL GEOGRAPHY.

A careful study of the election returns from the several counties composing this (the eighth) Congressional District will doubtless have the effect of smothering the ambition of some of the numerous Democrats who have aspirations for the position for which Mr. McCreary has announced he would not again be a candidate. Here are the figures as cast for Harlan and Bradley:

	Harlin,	Bradley
Anderson.....	1245	944
Boyle.....	1296	1423
Garrard.....	1114	1471
Jackson.....	177	1320
Jessamine.....	1240	1196
Laurel.....	637	1495
Lincoln.....	1322	1620
Madison.....	2471	2591
Mercer.....	1460	1378
Owsley.....	199	814
Rockcastle.....	720	1292
Shelby.....	2058	1464
Spencer.....	931	452
Total.....	15040	17400

It will be noted that the five counties at this end of the district are the only ones which give Democrats a majority, and that Shelby, Spencer and Anderson, which "never get nothing wrong," alone gave majorities west speaking of Shelby, with a majority of 594, was the banner county of the district, wherefore we content that in case one of her sons should desire the nomination for Congress he should have the first claim on it. Spencer will second this contention, for Mr. Fore is as popular there as at home, and in Anderson he will also have a large following. It is time that the end of the district which furnishes the vote should have recognition in the Senate.

The Sentinel will allow us to call its attention to the fact that Laurel and Owsley have not formed a part of the Eighth Congressional District for many years. The Republican plurality in Laurel was 858, and in Owsley was 615, or a total of 1473. This, taken from the Sentinel's total plurality of 2420, leaves only 927 to overcome, which can and will be done November of next year.

As to Shelby's claims, they are certainly strong. Madison will give the name, whoever he may be, a respectable majority, and had just as soon be a member from Shelby as any other county.

THE PRESIDENT'S FORTHCOMING MESSAGE TO CONGRESS.

President Cleveland may issue to Congress a message upon only one subject, as he did in 1887. This subject will be finances instead of tariff. The President had not decided upon this course finally when he returned from New York ten days ago, but he is still considering it, and he has said to one of the important bureau chiefs that the routine reports and recommendations which are the usual burden of Presidents' addresses might be omitted altogether from the forthcoming message. The President ex-

plained that detailed information of the operations of all departments was desired and might be incorporated in the annual message. He intimated that he was already at work upon such a communication, but that he was gravely considering the expediency of excluding all topics but one and making the message very short.

If the President determines upon this policy no one need be in doubt as to the exclusive subject that will be discussed. It will be an appeal for legislation that will remove the treasury from the embarrassing influences of a fluctuating demand on its gold—an appeal for the single gold standard, and for the withdrawal of greenbacks from circulation.

Mr. Cleveland has felt that the financial conditions, in view of the recurring necessity of issuing bonds to maintain the purity of all currency, would justify him in putting aside for the present all other questions.

Mr. Cleveland has had it in mind since the last Democratic Congress refused absolutely either to accept Secretary Carlisle's suggestions for a revision of the currency or to enact any substitute legislation.

The President, moreover, believes that the Republicans, in the interest of harmony a year hence, will attempt to evade the issue, and will insist that relief can be simply effected by reapplying the protection principle and raising the tariff rates.

Mr. Cleveland's famous message against monopoly-made tariffs was short, and it was sent to Congress in December before the Presidential campaign of 1888. The time is again opportune, his friends say, for another message, which the Republican Congress will probably not heed and which may make an issue against the Republicans for 1896.

In observance of a long established custom, I respectfully recommend that Thursday, the twenty-eighth day of November, one thousand eight hundred and ninety-five, be set apart as a day of Thanksgiving and prayer by all citizens of our Commonwealth. Therefore, let us substantially remember the afflicted and the poor, and join together in Thanksgiving for God's gracious mercies.

[L. S.] In testimony whereof, I have hereunto set my hand, and caused the great seal of the Commonwealth to be affixed. Done at Frankfort, Kentucky, this twenty-first day of November, one thousand eight hundred and ninety-five, and in the one hundred and fourth year of the Commonwealth.

ABOUT GARFIELD AND HIS SON

The recent celebration of the birthday of the martyred Garfield was a tribute paid his memory by those who knew him best—his old friends and neighbors. They also honored the son—James R.—by his election to the Ohio Senate. Doubtless there will be no member of the Legislature whose course will be watched with more general interest than that of the young Senator who was given the largest majority ever bestowed upon a candidate in the Twenty-Sixth District. One of those who voted for Garfield was Edward N. Viers, the aged farmer who gave the dead President his first employment on the canal—Cincinnati Post.

THANKSGIVING AT KINGSLEY HALL.

BY

Miss Victoria Kingsley, of Kingsley hall, could afford to be a little eccentric, and people said. Not only was she rich and beautiful and highly accomplished, but she had reached the mature age of six-and-twenty and was mistress of her own fortune. Prior to the death of her parents, both of whom had succeeded in the same month to prevailing fever, the family had resided in the city, spending a portion of each summer only at their handsome country seat. But soon after her bereavement the young lady had gone into seclusion at Kingsley hall, which was a part of her heritage, and had since lived in the strictest retirement there, receiving no visitors except when her young brother, Robert, brought a party of his best companions up from town for a few days' recreation during the shooting season.

It was now three years since Miss Kingsley had been left an orphan. At her age this was a long time to renounce society, and it was not strange that the way pronounced her eccentric. But that portion of the world residing in the wealthy and eminently respectable village of Penstock began to have hopes for her when she suddenly emerged from her seclusion on a day as to become the hostess of a Thanksgiving dinner party. The truth was that Miss Kingsley had been doing some serious thinking. It had occurred to her, upon reflection, that people had a right to conclude that she was a selfish and proud, and she decided to set aside this verdict, if possible, by giving a series of entertainments at her house. Thanksgiving day was at hand, and she began to put her plan into execution, inviting a number of her church acquaintances in the village to dine at Kingsley hall on that day.

Of course the invitations were all promptly accepted, and the event was looked forward to as something out of the ordinary in Penstock. As for Miss Kingsley, she was surprised to find that she took a lively interest in the preparations for the dinner, and when Thanksgiving day dawned, with a frosty and nipping air, she was inclined to be proud of the success of her undertaking in one respect. It had proved to her that there was a pleasant way of passing her time than in brooding over her sorrow. All day she was strangely buoyant and cheerful, as if conscious by a presentiment that something very pleasant was about to happen.

And that afternoon something did happen—something that was not due to Miss Kingsley's programme. The busy young woman had entered the kitchen to give some final directions to the cook, when she observed that a strange man was sitting quietly in a chair on the opposite side of the room. She paused abruptly and stared at him, with a flash of startled recognition in her eyes.

"A poor tramp, mum, what asked for a life to eat," explained the cook, apologetically.

But Miss Kingsley did not hear. The color was coming and going in her cheeks, and she grasped the back of a chair to steady herself.

"Never mind, Hannah! I will see that the stranger is properly cared for, in a low but distinct voice. "Can it be possible?" The recognition was evidently mutual. The stranger rose to his feet, a young man of handsome features. He was a strikingly handsome man, tall and straight as an arrow, with a drooping brown mustache. He certainly had not the appearance of a tramp, except that his clothing was threadbare, and even ragged in places, and he wore no overcoat.

"I beg pardon?" he stammered. "I did not know—"

"But Miss Kingsley seemed to suddenly recover her self-possession. Turning to the cook she said:

"Never mind, Hannah! I will see that the gentleman myself. He is an old friend of the family." Then, addressing the man, "Will you please come with me, Mr. Granby?"

He looked as if he would have preferred to sink through the floor, but she had turned and was leaving the kitchen before he could reply. He followed her hesitatingly, mechanically, like one in a dream. She led the way to a small room adjoining the library. There she turned and faced him.

"Mr. Granby, will you kindly tell me what this means?"

He stood before her, fumbling his hat in his hands. Her question seemed to increase his confusion, and he had to clear his throat several times before he could find his voice.

"It is all an unfortunate blunder," he exclaimed at last. "I did not know that this was your home. I claimed to be passing, and I thought—well, I was hungry, and I—no, I will not sit down, as she waved her hand toward a chair, and he sat down, looking distressed.

"You mistake my meaning," said Miss Kingsley, with a look of distress. "I am not asking why you are here, but

And so it came about that Maurice Granby, transformed from a tramp into a conventional gentleman in evening dress, sat at the right hand of the hostess at the grand turkey dinner that evening, having been introduced to the other guests as an old friend of the house. At least two persons at that table were in harmony with the spirit of the occasion, for their hearts throbbed with gratitude and joy during the whole of that Thanksgiving feast.

It was only two months later that Kingsley hall was the scene of a brilliant wedding reception, and Maurice Granby had come there to stay.

"My father and mother have both gone to another world, Mr. Granby. Robert and I have been orphans for three years. It was not until after their death that he made his confession to me. He told me of his youthful infatuation for gambling and horse races; how he became so deeply involved that in a moment of desperation, to avert the disgrace he saw staring him in the face, he forged the signature of a depositor in father's bank, hoping thus to retrieve his losses and replace the money before its withdrawal was discovered."

As teller of the bank, cashed the check without suspicion. Afterward, when the money was squandered, and Robert brought a party of his best companions up from town for a few days' recreation during the shooting season.

THE divine that is in man constantly after the infinite. Hence among all peoples there is an universal searching after God. As the cult and the morals of the people, so their idealization of the prescient. All, however, clothe Him with righteousness and confess Him to be the supreme almoner of the universe. Gratitude is neither dead nor asleep, and as men receive so the wells of thankfulness send forth bubbling waters whose ripples make music of praise. Among Christian nations, where conceptions of the All-Good have reached greatest perfection, the lesson of gratitude is most frequently taught and most universally practiced. Long anterior to the birth of the American nation the people were wont at the close of the aftermath to set apart a day in which to consider the tender mercies, the boundless love, the generous hand of God, in order that their hearts might swell and throb in responsive tone to His beneficence. This practice, born amid the rocky hills of New England, has been perpetuated annually by a nation, which, above all peoples that have been and are, has most cause to be glad.

Here indeed do the rocks pour out rivers of oil, the earth yields marvelous increase and only the sins and shortcomings of men make possible want or suffering anywhere. Among this people is the earnest, the personal liberty, broadest interpretation of the rights of the individual, highest aspirations after comforts and luxuries and great general faith in the promise and fulfillment of a more exalted condition of universal happiness. With this people, as with other people, are greater diversity of climate, more varied yields of vegetation and a wider range of employment for the masses than is found anywhere else upon the globe. In this country men have need to their comfort to employ leisure, that it was he and not you who forged the check for \$15,000!"

Episcopal Church.

Thanksgiving Services.
The First Presbyterian Church will observe Thanksgiving Day by a service at 10:30, a. m. The official choir of that church have prepared an excellent program of music for the occasion, and the sermon will be preached by the pastor, Rev. Joseph K. Smith. The public are cordially invited.

L. P. Sanders & Co.
Some years ago a cigar factory in Richmond was conducted by L. P. Sanders & Co. It prospered, and the proprietors went to Mayville and thence to Paris unknown. Sanders was reported dead. One of the workmen was back in Richmond last week and says Sanders is a resident of Indianapolis. From another source we hear that Nicholson, from another company, is now president of a gold mining company at Cripple Creek, Colorado.

Push Ball.
This is a new game. It is not unlike football. Sixteen persons play, eight on each side. The ball is six feet, three inches in diameter, of inflated rubber, and weighs 12 pounds. Each party tries to carry the ball to the opposite side of the field, and in so doing the great ball is often lifted up at arm's length and kept dancing on the players' hands for moments in succession.

Tax Penalty Goes On Saturday Night.
Sheriff J. P. Simmons calls the attention of all persons who have not paid their tax for 1895, to the important fact that the 6 per cent penalty takes effect Saturday night at 12 o'clock. He or one of his deputies will be in the office till midnight.

This added penalty of 6 per cent does not mean 9 per cent annum, but straight and full at once, even should the taxes be paid a day afterwards. In other words if your taxes are \$100, and you fail to pay by Saturday night at 12 o'clock, you will owe \$106 on Monday.

Residence Changes.
Conductor Pates, of the R. N. L. & B. and wife, have rented the "lower" house on Broadway and taken possession. The house was built six years ago, but Squire Powell would never rent it, so it has gone unoccupied till now.
George O. Doherty, wife and little one have gone to housekeeping in the Frisco residence on Second, next below T. S. Leers', after boarding several years.
George Brimmon McCallahan Hale and family have removed from Taylor's Fork, down on the Lancaster pike, and now reside on Seventh street.

After Pie.
The Republicans believe that to the victors belong the spoils, from the number of applicants that are now scrambling for offices under the new administration in Kentucky. There will be about ten thousand that will go away hungry and disappointed, and with a few exceptions on their lips. In order to help many that want to get and save them money and many sleepless nights, we propose that Madison county be given all the offices; we have the men right here that are willing to take them, and they are capable and deserving of them and it will not stop to all this uneasiness in the rest of the commonwealth. What say, gentlemen, is it a go, Wm. O. B.? We will then give our consent to Garrard county having them the next time.

Foreign Newspapers.
The CLIMAX is in receipt of copies of newspapers from Jamaica, South Africa and New Zealand. Their styles and make-ups are wonderfully alike to be so remotely separated geographically. The columns are half again as wide as those of the CLIMAX, and the advertisements are set in large type throughout.

These papers were sent us by the Chamberlain Medicine Co., of Des Moines, Ia., and all contain advertisements of the Chamberlain's medicine. So when you take Chamberlain's medicine, you know that people all around the world are doing the same. A blacksmith at a village in Kentucky certifies to curing wound in him by the medicine in question, and that ought to remove all doubt from the minds of West Indians, South Africans and far away New Zealanders.

Foot Ball.
(For The Climax.)
At last a game has been arranged between Central University and State College and will be played in Richmond next Saturday, Nov. 30th. This will undoubtedly be the best game of the season. State College, last year's State champions, have thus far successfully defended their title this year, having defeated Centre College and the Louisville Athletic Club.

W. H. Lyon, coach, and H. O. Cecil, manager, of the Central University team, witnessed the game between State College and the Louisville Athletic Club in Lexington last Saturday and watched with interest all the plays which State College played on their opponents. They were evidently making mental notes, which they will be able to use to no little advantage when Central University and State College meet next Saturday.

They are of the opinion that, although State College has the strongest team she has had for years, Central University in her present form will be able to succeed fully cope with her and are confident of victory.

Died.
Mrs. Bessie Broadus Embury died at the home of her father, H. C. Broadus, in Richmond, on Tuesday, Nov. 26th, 1895, aged probably 25 years. She leaves her husband, John Embury, and an infant several months old. She had been ill for nearly a year. Burial in Richmond cemetery today.

Wichester Court.
J. A. Ramsey, auctioneer, reports 400 cattle on the market. Best feeders, 1,200 pounds, brought \$10 to \$1100 feeders 3 to 3½; 750 to 800 lbs. 2½ to 2½; 600 lb. heifers 2½ to 2½. Good, smooth oxen, 3 to 3½, 100 grade sheep \$1.45 per head; fat hogs, 3c. A good feeling for stockers and nearly all sold.

Get Horse Sense.
B. C. Potts owns a mare that has more sense in one direction than any living animal of her kind. Her hoofs grow rapidly, and when a little longer interfere with her traveling. But nobody knows the trouble better or sooner discovers it than she, and the first time the gate is left open, she walks straight to the blacksmith shop. When she returns home

(For The Climax)
On last Tuesday, several of the Richmond people who are interested in the light harness horse, went out to the track and witnessed the performance of some very speedy and promising youngsters. The first exhibited were Mr. B. H. Neale's, whose lot consisted of four weanlings by Ashby 2:19½, that could step eighth right close to twenty seconds and were pronounced a superior lot by all who saw the performance. Ashby promises to be a great sire and his fair to equal his deal sire (Vatican) in points of extreme speed, as Tennis, the oldest of his produce, took a record of 2:38½ at the late Lexington meeting, and thereby took the record for the yearlings of 1895. It is doubtful if four such weanlings can be found by the same sire with the same amount of handling.

Mr. R. F. Fox, Jr., also had some very promising ones—a roan filly by "Fox Bird," that possessed a beautiful gait and good evidence of a coming trotter.

Mr. Fox also showed a bay filly by Dr. Hooker, full sister to "Judge Fox," which he recently sold for \$800. This is certainly a valuable filly. The next was a bay filly, the property of C. D. Chenault, of this city, that showed considerable speed as well as being a royally bred one, being by Time Onward, out of a mare by Happy Medium, next dam by Mammoth Patcher.

Mr. Dave Wincox also had the pride of his stable present, and she is a magnificent going animal, being a full sister to "Brown Velvet," 2:16. J. N.

Over Thirty Years
Without Sickness.

Mr. H. WITTESTEIN, a well-known,
enterprising citizen of Byron, Ill.,
writes: "Before I paid much atten-
tion to regaining the bowels, I
hardly knew a well day; but since I
learned the civil re-
sults of constipation,
and the efficacy of
AYER'S
Pills, I have not had
one day's sickness
for over thirty years
—not one attack
that did not readily yield to this
remedy. My wife had been, previ-
ously to our marriage, an invalid for
years. She had a prejudice against
cathartics, but as soon as she began
to use Ayer's Pills her health was
restored."
